1 Late breaking results: short papers: Web accessibility for people with cognitive disabilities

Jeon Small, Pamela Schallau, Karen Brown, Richard Appleyard

April 2005 **CHI '05 extended abstracts on Human factors in computing systems CHI '05**

Publisher: ACM Press

Full text available: pdf(205.94 KB) Additional Information: full citation, abstract, references, citings, index terms

This pilot study investigated ***individuals with developmental cognitive disabilities (DCD) navigating W3C accessibility-compliant Web sites*** and the impact of four cognitive determinants: ***situation awareness, spatial awareness, task-set switching, and anticipated system response***. Participants were placed into one of two search conditions and were asked to complete information-finding tasks. The usability evaluation demonstrated that the ***majority of users with DCD< ...***

1 **Using structural characteristics for autonomous operation**

Carlos Baquero, Francisco Moura

October 1999 **ACM SIGOPS Operating Systems Review**, Volume 33 Issue 4

Publisher: ACM Press

Full text available: pdf(636.87 KB) Additional Information: full citation, abstract, index terms

The majority of current mobile computing systems operate either in conjunction with a central network by some form of weak connectivity or tend to operate in total isolation and perform sporadic synchronization with a backup or a central network. These configurations miss an additional and very useful pattern of operation --- mobile to mobile interaction. Recent mobile devices have the capacity for direct communication among them, but this option is essentially neglected by the application softw ...

Search: The ACM Digital Library The Guide

+abstract:local +abstract:computer +abstract:store +abstract: SEARCH

Nothing Found

Your search for **+abstract:local +abstract:computer +abstract:store +abstract:URL +abstract:geographic** did not return any results.

You may want to try an Advanced Search for additional options.

Please review the Quick Tips below or for more information see the Search Tips.

Quick Tips

- Enter your search terms in lower case with a space between the terms.

  ```
  sales offices
  ```

  You can also enter a full question or concept in plain language.

  ```
  Where are the sales offices?
  ```

- Capitalize proper nouns to search for specific people, places, or products.

  ```
  John Colter, Netscape Navigator
  ```

- Enclose a phrase in double quotes to search for that exact phrase.

  ```
  "museum of natural history" "museum of modern art"
  ```

- Narrow your searches by using a + if a search term must appear on a page.

  ```
  museum +art
  ```

- Exclude pages by using a - if a search term must not appear on a page.

  ```
  museum -Paris
  ```

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

```
museum +"natural history" dinosaur -Chicago
```
